TechnoCrafts
DATA ANALYTICS

Leading DATA ANALYTIC Software Developer

With full backend support service

How it works:

Data Collection
Business Analysis
Functionality Requirement

Wireframe
Layout Assembly
Functionality Integration

Prototype
Testing & Refinement

Branding
Launch
UX Monitoring

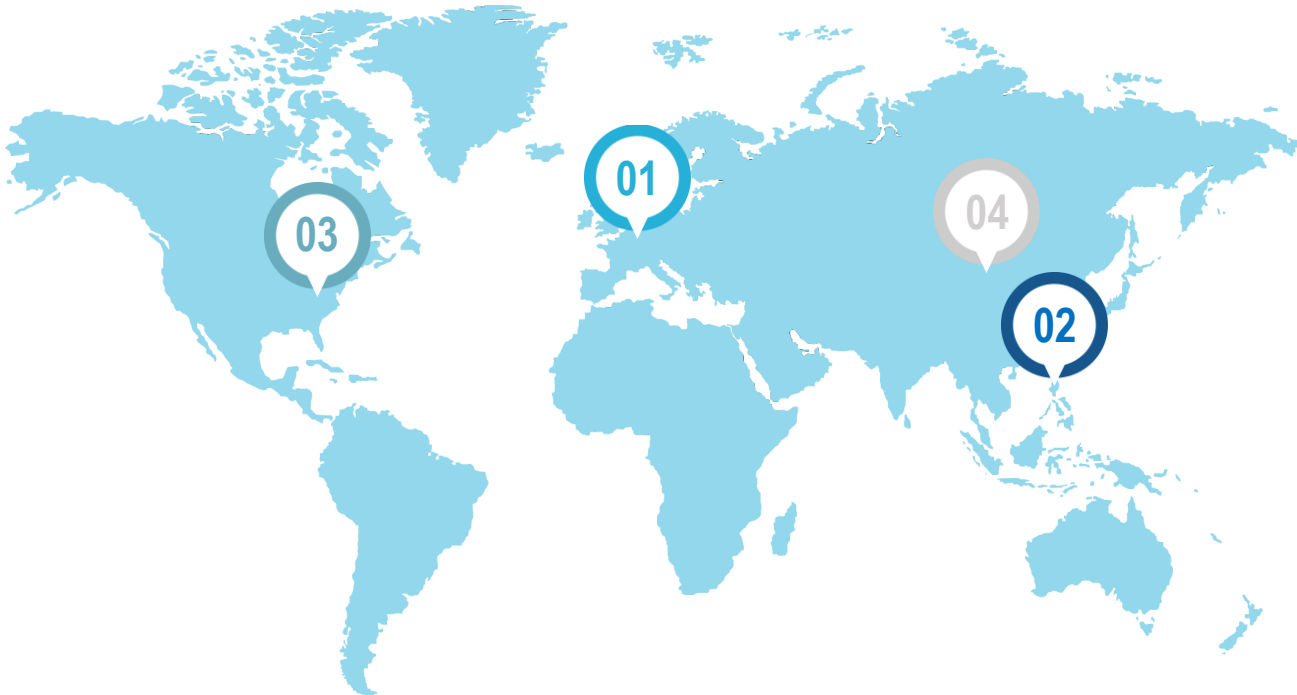

What to Expect

- **Back-office Support Services**
- **Consistency Processing** for all new requests on day one with integrated global operations (4 locations, 83 FTE, 24/7 coverage)
- **Converted Legacy Documents to New Template** within six weeks (prior to going live)
- **Refined Processes** to expedite turnaround requests within the day.
- **Supported Platform Integration** for CMS, templates, applications through testing and improvement recommendations.
- **Designed Department-Specific Workflows** and forms in the new firm workflow tool – live on day one and we have seen an increasing use of this self-entry model.
